## PREFACE

This book is compiled from the records in the Office of the Recorder of Brands at Regina, where the greatest possible care is taken to extract the necessary information required for the publication of an up-to-date Supplement to the Saskatchewan Brand Book. Should any mistakes be found, the Recorder of Brands will be glad to have them brought to his attention, so that they may be corrected in a future issue of the Brand Book or in a supplement thereto.

The Brand Book has been divided into two sections, cattle brands being kept separate from horse brands. Each such section of the book has its own index. The general scheme of the arrangement of the book is to index the brand under its first letter or number. A brand of which the first letter is the letter "A" will be found under that letter, while a brand of which the first character is the number "2" will be found under that numeral. For instance a brand, i.e.: —A2 would be found arranged in its proper sequence under the letter "A" and classified among the three character brands, while a brand, i.e.:—2A would be found under the numeral "2." Single character brands precede two character brands in arrangement, and two character brands precede three character brands. Brands containing an arbitrary design before either a letter or a numeral are classified under the heading of "Arbitrary Brands," and will be found arranged after the numerals at the back of the cattle and horse sections, respectively.

J. G. ROBERTSON,

Office of the Recorder of Brands  
Department of Agriculture,  
Regina, Sask.

Recorder of Brands.  
January 1928.
